

All supported products are affected by the patches in this Critical Patch Update. The exposure of supported products is dependent on the Oracle Database and Oracle Fusion Middleware versions being used. Oracle Database and Oracle Fusion Middleware security updates are not listed in the Oracle Products Documentation risk matrix. However, since vulnerabilities affecting Oracle Database and Oracle Fusion Middleware versions may affect the Oracle Products Documentation, Oracle recommends that customers apply the January 2022 Critical Patch Update to the Oracle Database and Oracle Fusion Middleware components of Oracle Products Documentation. For information on what patches need to be applied to your environments, refer to Oracle Products Documentation Release 12 Critical Patch Update Knowledge Document (January 2022), My Oracle Support Note 2570001.1. This Critical Patch Update contains 6 new security patches for the Oracle Communications Applications Infrastructure. 4 of these vulnerabilities may be remotely exploitable without authentication, i.e., may be exploited over a network without requiring user credentials. The English text form of this Risk Matrix can be found [here](#). This Critical Patch Update contains 5 new security patches for the Oracle Retail Applications. 4 of these vulnerabilities may be remotely exploitable without authentication, i.e., may be exploited over a network without requiring user credentials. The English text form of this Risk Matrix can be found [here](#). The exposure of Oracle Solaris and Oracle Solaris Express products is dependent on the vulnerability and release of the software. This Critical Patch Update contains new security fixes for Oracle Solaris and Oracle Solaris Express. The English text form of this Risk Matrix can be found [here](#).
